Soleil d'Or.....	75
Ulrich Brunner.....	150

Terms

Time of Shipping—We endeavor to dig our roses in the early Fall but some years the growing season is long and they are not dormant until December.

C. O. D.—Orders from nurserymen not known to us must be accompanied by cash or satisfactory references. Where we are requested to ship C. O. D. we expect one-half the amount of order before shipping.

Packing—We charge for packing at the actual cost of material used.

Guarantee—The California Nursery Company will exercise care to have all stock true to name, nevertheless it is understood and agreed that should any stock prove untrue to name, the California Nursery Company shall be liable only for the sum paid for the stock which may prove untrue, and shall not be liable for any greater amount. All quotations are net and subject to stock being unsold when orders are received.

Our roses this year are far superior to any we have offered heretofore. They are strong field-grown budded plants. The plants were all cut back when young to induce a branched growth, therefore they have well developed heads. Nurserymen who have seen the stock pronounce them the best ever grown.
